## FOR IMMEDIATE RELEASE

## **Demonstration At Schriever Air Force Base**

We will be protesting on public property next to Schriever Air Force Base. We will be holding up signs and passing out DVDs and fliers.

We are protesting the suppression of highly advanced technologies and the existence of unconstitutional black space programs.

We will be providing leaked information to base personnel so that they will be better able to do their jobs.

We feel there has been a high level breach within the chain of command, which has been carrying on extra-constitutional space programs, as recently disclosed by many whistle blowers, involving deep underground facilities at Schriever.

We request that base personnel be permitted to review secret space program whistleblower testimony, and inform others to do likewise, without fear of losing their jobs, or other threats.

We are encouraging more whistleblowers to come forward.

## The Full Disclosure Project

The Full Disclosure Project is a non-profit collective of transparency advocates focused on the release of advanced and improperly classified technologies that could immediately bring an end to the needless suffering of many, as well as an increased level of peace, prosperity and equality for people around the world.
